On April 26-29 the Southeast Region held its first ever a 9-wicket regional tournament at the Mid-Atlantic Croquet Club (MACC) in Adamstown, MD. The weather alternated from sunny to rainy and hot to cold. Some games were played on pristine green dry grass and others were played in the mud with standing water. We learned that standing water has glue like stopping power and if your ball is in mud, it is not likely possible to be able to hop over a ball in the jaws of a hoop. A big THANK YOU goes to the Mid Atlantic Croquet Club and host Billy Beam for making this a great tournament!

Players at the 2018 SE Regional 9-Wicket Tournament enjoy the spring air in beautiful Adamstown Maryland.
